**Use of Vertebrate Animals in Research at MLBS:**

If your MLBS research program directly involves vertebrate animals, you must submit the documents listed below. Your approved protocol will be reviewed by MLBS and UVA's IACUC in a cursory fashion. Please submit protocols at least 60 days prior to initiating your work.

- 1) A copy of the *Animal Protocol* you submitted to your home institution, or other agency overseeing your work.
- 2) A copy of the *Letter of Approval* you received from your institution to conduct research on vertebrates.
- 3) A copy of all applicable state and federal permits.

**Research Summary:**

Please include a short (1-2 page) summary stating your research plans and goals. Make sure you describe any field manipulations or long-term studies (>1 summer) you have planned. While this is not an “application” in the sense that we judge your work and accept or refuse it, we do need to confirm that your activities at the station are compatible with other research efforts, and with long-term goals for maintaining the station’s biological and physical integrity.

**CV:**

Please include a current CV.

**Research Support:**

If you wish to be considered for a pre- or postdoctoral Research Fellowship, please submit a budget with a list of current and pending support by **March 15<sup>th</sup>** with application materials. These scholarships range from \$350 to \$2,000.

**Please Note:** If you plan to conduct research on the Station or use Station facilities, we ask that you please follow the policy outlined below. Thank you for your cooperation.

1. Prior to Submission of Results: Place an acknowledgement to “Mountain Lake Biological Station, University of Virginia” in any publication, report, or electronic communication, in which work conducted at Mountain Lake is mentioned.
