

MLBS Seminar Series Summer 2022

Lewis Hall Auditorium
Most Tuesday and Thursday Evenings, 8:00p.m.
Mountain Lake Biological Station
Giles County Virginia
540-626-7196 mlbs@virginia.edu mlbs.org

- May 31 Dave Neely
Tennessee Aquarium Conservation Institute
Blobs, ghosts, and other fishes where they just shouldn't be
Reception following talk
- June 2 No seminar
- June 7 Cancelled
- June 9 *REU Proposals*
Reception following talks
- June 14 Joel McGlothlin
Department of Biological Sciences, Virginia Tech
Ancient Enemies: The evolutionary origins of the predator-prey arms race between snakes and newts
Reception following talk
- June 16 Sarah McPeck
Department of Biology, University of Virginia
Ecological Resources Evolve: Causes and consequences for species interactions
- June 21 Christian Cox
Department of Biological Sciences, Florida International University
Experimental Evolution in the Tropics: Response to rapid environmental change
- June 23 Corlett Wood
Department of Biology, University of Pennsylvania
The Conflict Beneath Your Feet: Indirect effects in plant-symbiont interactions
- June 28 Mandy Gibson
Department of Biology, University of Virginia
Problems of Interaction: The evolution of parasite escape mechanisms
Reception following talk
- June 30 ArtLab Artists Presentations
- July 5 Sharon Horvath, *ArtLab Lucile Walton Fellow Lecture*
Department of Painting and Drawing, Purchase College, State University of New York
Five Hundred Lifetimes
Reception following talk
- July 7 David Beamer
Department of Natural Sciences, Nash Community College
Microhabitat convergence, morphological homoplasy and taxonomy of blackbelly and shovelnose salamanders
- July 12 Robert Cox
Department of Biology, University of Virginia
Sexual dimorphism in lizards – from genes and hormones to phenotypes and fitness

- July 14 Chloé Lahondère
Department of Biochemistry, Virginia Tech
Sugar Feeding in Mosquitoes: A neglected aspect of their biology and a potential tool for their control
Reception following talk
- July 19 Margaret Couvillon
Department of Entomology, Virginia Tech
Bees as bioindicators for a sustainable future
Reception following talk
- July 21 Ahva Potticary
Department of Entomology, University of Georgia
The ecological basis of an emergent behavioral trait
- July 26 No seminar
- July 27 *REU Final Reports*
